

Recommendations from
Comprehensive Planning Committee
June 17, 2021

1. In accordance to federal treatment guidelines, increase access to immediate ART initiation (within 96 hours) from diagnosis.
2. Expand operating hours to include evening and weekend appointments for HIV medical care in community and hospital-based HIV treatment sites.

Alteration for #1 as suggested (but not voted on) by CPC:

*In accordance to federal treatment guidelines, increase access to immediate ART initiation (within 96 hours) from diagnosis **unless otherwise clinically indicated and recorded.***
